

ARE YOU PROTECTED?

Learn how to protect your business from being the victim of a Hacking attack.

Tuesday, April 10, 2007

Ramada Hotel & Convention Center

1818 Victoria Ave, Regina

8:00 am - 9:30 am (Doors open at 7:30am)

Breakfast provided

MicroAge, Your Trusted Technology Business Partner presents a security awareness seminar featuring a Live Hacking Presentation.

Learn how your systems can easily be compromised and how to protect your business from being the victim of a Hacking attack.

MicroAge Training is one of only four Accredited EC-Council Training Partners in Canada. We are pleased to partner with EC-council to offer a full line of highly specialized security courses. Let us introduce you to the tools and countermeasures that are available for your protection. If you want to beat the Attackers, you've got to think like a Hacker. MicroAge can help you learn how!

Live hacking demonstration by Donald Burlack – CISSP, CISM, CEH, CEI

Kindly RSVP by April 1st to reserve your attendance. \$10.00 reservation fee applies. Call Derek Pollock at 306-566-4529 or email Derek.pollock@microagesask.com

Live hacking demonstration by Donald Burlack – CISSP, CISM, CEH, CEI

Donald is a professional information systems security practitioner and computer forensics investigator with over 28 years of experience in the information technology and telecommunications industries. He has served 17 years as Senior Systems Security Director at SaskTel and as Auxiliary Constable within the Technological Crimes Section of the RCMP. He has presented computer evidence in both civil and criminal judicial proceedings in Canada and the United States. As well, he has authored several articles and presented on information security and computer forensics at numerous occasions/locations including SANS Institute, IBM Tivoli, TV talk shows, and professional organizations.

Donald is currently president of C.S.I. Services Inc, an EC-Council certified instructor, and a course developer & instructor at Paraben Corporation. His current memberships include Computer Security Institute, High Tech Crime Investigators Assoc, Institute of Internal Auditors (IIA), and Information Systems Audit and Control Association (ISACA).
